

capability stack

Product & Experience Design

Product Experience Design
Interaction Design
Information Architecture
Service Design
UX Research & Evaluation
Product Strategy

Prototyping & Interaction

High-Fidelity Prototyping
Micro-Interaction Design
User Flow Modeling
Journey Mapping
Interface Documentation
Rapid Concept Validation

Systems & Platform Design

Enterprise Platform UX
Public Digital Platforms
Multi-Service Ecosystems
Operational Dashboards
Workflow Systems Design
Scalable Design Systems

AI & Intelligent Systems

AI Product Experiences
AI Workflow Prototyping
AI-Driven Operations Tools
AI-Augmented Design
AI Interface Patterns
Human-AI Interaction Design

Technical & Engineering Base

Frontend Collaboration
HTML / CSS Literacy
API-Aware Design
Design-Engineering Handoff
Technical Product Specs
Developer Workflow Support

Emerging & Experimental

Interactive Web Experiences
Spatial Interface Experiments
Real-Time Prototyping
AR Interaction Concepts
Generative Interface Design
Creative Technology Exp.

domains

Designing digital systems where scale and reliability matter.

Public Digital Infrastructure
Healthcare Platforms
Enterprise Media Systems
Mobility Services
AI-Enabled Operational Tools
Design Systems & Governance

impact

20M+ Cumulative Users

10+ Countries

40+ Entities Trained

30+ Services

7 Design Systems

100+ Brands

achievements

12M+ Users on UAE PASS
Designed experiences for 12M+ users on UAE PASS, the UAE's national digital identity platform.

Launched Dubai.ae
Contributed to the redesign and launch of Dubai.ae, the official digital portal for the Government of Dubai.

Created IWL Branding
Conceptualized and designed the IWL brand identity, including logo, visual system, and core brand assets.
